3. Barriers to future attainment for pupils eligible for Pupil Premium, including high ability

a.	Historically, children entitled to Pupil Premium had high levels of Persistent absence. Although improving, this change is recent and needs sustaining
b.	children who are entitled to Pupil Premium are more likely to have pastoral support plans, and so have low levels of achievement academically.
c.	Children start in our nursery below age-related expectations and a particular area of learning that needs support and intervention is speech and language. 59% of pupils in EYFS live in the most deprived households in Doncaster.

d.	45% of our children live in the most deprived households in Doncaster. A barrier to future attainment is a lack of educational and academic aspirations for the children.
e.	Low levels of reading and low value of reading in homes
f.	SEMH issues present disproportionately with disadvantaged pupils. Many cannot self-regulate their emotions or behaviour. Some have low self-esteem and show a lack of resilience.
g.	Lack of aspiration/ imagination because of limited life experiences beyond the Moorends community

4. Desired outcomes	
a.	<p><u>Attendance to remain above 96%</u></p> <ul style="list-style-type: none"> • Following the school closure in response to the coronavirus pandemic we are aware that there may be a drop in attendance due to parental anxiety and this will need to be monitored carefully particularly in relation to pupil premium children and lost learning opportunities. • Systems that have been implemented during the previous academic year have not yet become embedded due to the school closure; they will need to be reinforced. • The administrative aspect of attendance data will be monitored weekly and analysis of absences and codes will be acted upon. • There will be a 'key worker' approach for children who are persistently absent and Attendance Support Plans will be implemented. • Case studies will continue to show the impact of any actions and support given. • Persistent absence will remain in line or below National guidelines.
b.	<p><u>Embed Behaviours for Learning</u></p> <ul style="list-style-type: none"> • Before the school closure a minority of children's poor behaviour was impacting upon the school and the other pupils. In order to address this the behaviour policy has been reviewed and adapted to better meet the needs of the pupils at Marshland. • The role of the Inclusion Manager has been addressed and will now focus on working with key children to support them in developing better behaviours for learning. • The Inclusion Manager will also be supporting staff to develop a range of positive behaviour techniques implementing the ethos of the new behaviour policy. • The desired outcome is that the behaviour of these children improves, they do not disrupt lessons and their engagement in school reward schemes, continues to improve.

<p>c.</p>	<p><u>More Effective EYFS Provision</u></p> <ul style="list-style-type: none"> • Many children who enter Foundation Stage and 'Rising Threes' are below age related expectations, particularly in the prime areas. Therefore, the provision in Foundation Stage 1 is given a high level of adult: child ratio in order to accelerate progress and improve outcomes with the aim of them being 'school ready'. • Following on from school and nursery closures, we are aware that these baselines may be significantly lower this academic year. The staff will prioritise providing early support and intervention to develop speech and language skills.
<p>d.</p>	<p><u>Increased Curricular Opportunities</u></p> <ul style="list-style-type: none"> • Moorends is one of the most deprived areas of Doncaster and opportunities to move beyond the boundaries of Moorends are limited. The children have few opportunities and low aspirations for their education and their future careers. This academic year we are launching a new bespoke curriculum, which has been designed with the local area at the centre of it. • The desired outcome is to engage learners with an enhanced curriculum and provide exciting learning opportunities, which will inspire and aspire them to succeed. • Embedded within the curriculum are '50 Marshland Moments' which provide the children with a range of memorable experiences to enhance their cultural capital and provide them with a love of learning.
<p>e.</p>	<p><u>Improved Attainment in Reading</u></p> <ul style="list-style-type: none"> • We need to ensure we provide opportunities for pupils to hear and read good quality texts, participate in rhymes and songs and provide children with the knowledge and skills to be confident independent readers. • We wish to provide the youngest children with a bank of core familiar nursery rhymes and songs that they know 'off by heart' and a love of story time. • We aim to engage children into reading for pleasure and to provide a rigorous and systematic approach to the development of early reading skills and knowledge with interventions to assist those children with the acquisition of phonics knowledge. <p><u>SEMH</u></p> <ul style="list-style-type: none"> • Identified children will work through the programme 'Bags of Character' to develop team work skills, taking turns skills and friendship skills • 'Top of the Traingle' children will receive 1:1 sessions from the behavioural team to help them better regulate their emotions – how many sessions children will receive will depend upon need • The school will access support from a range of outside agencies including B.O.S.S. and CAMHS team to support those children with more complex needs • The behavioural team will operate drop-in sessions to work with parents to better support the needs of their children

Lack of aspiration and Imagination Beyond Moorends

- Children will experience visits to places beyond the local community
- Visitors will be invited to visit the school to talk about their careers to enhance the children 's experiences of the world of work
